

# EDUCATION

## Industry Challenges

- Family Educational Rights and Privacy Act (FERPA)
- Tight operating budgets
- Increasingly transient student population

## Business Value Proposition

- Flexible security designed to accommodate relocation of students
- Industry leading physical records management feature set
- Collaboratively design and implement an unlimited number of records retention schedules for the archiving or destruction of records
- Encourage end-user “buy-in” with intuitive interface
- Track records from point of creation through archiving and final disposition
- Restrict sensitive data via the configuration of an unlimited number of role-based security groups
- Maintain complete audit histories for every record
- Minimize “lost” records with low-impact user compliancy and proven recovery strategies
- Maintain records integrity via proven inventory practices
- Maximize end-user accuracy and efficiency through workflow improvements including automated data entry, records requesting, bulk updating, and merging of duplicate records
- Analyze process metrics identifying bottlenecks and potential workflow improvement areas

## Technology Highlights

- True thin client enterprise application supporting all contemporary browsers
- Enterprise Content Management integration
- Barcode and Radio Frequency Identification (RFID) ready
- Available on-premises or in the cloud

## Existing Client Implementations

- School districts
- Colleges
- Universities
